NOTES FROM THE PRESIDENT'S GHOST WRITER -

Good Morning Friends!

Time for a Segway update. Today we have a speaker from the American Diabetes Association, Brian Wells. This group is motivated to helping those with this illness and we will learn something worthwhile. Mike is still looking for speakers and for club members who can offer either their expertise or speakers who can add to our knowledge on any worthwhile topic. Let him know if you can help. We WILL have a 'stuff sale' this spring.... Stay tuned for details.

**Happy Thursday.

JOKE(S) OF THE DAY

I have gotten that dreaded furniture disease ... that's when your chest is falling into your drawers.

I was thinking about those employment application blanks that always ask "who is to be

notified in case of an emergency?" I think you should write: A GOOD DOCTOR ... or 911!

Midlife is when you go to the doctor and you realize you are now so old, you have to pay someone to look at you naked.

1200 people attended the recent International Psychic Society conference.

Moderator: "How many attendees believe in ghosts?" (Over 80% of the hands were raised)

Moderator: "How many have actually seen a ghost?" (58% of the hands were raised)

Moderator: "How many believe that a ghost can be solid?" (23% of the hands were raised)

Moderator: "How many have ever physically touched a ghost?" (3% of the hands were raised)

Moderator: "How many have ever had sex with a ghost?" (After some pause one lonely hand at the back of the hall went up)

Moderator: "May I ask where you are from, sir?" Attendee: "I am from Australia."

Moderator: "And you say you've had sex with a ghost?" Attendee: "Oh sorry! I thought you said "goat."

Jesus and Satan got into an argument over which of them was the better computer programmer. Finally God got tired of the bickering and told them that he would judge a contest between them. They each had four hours to write the best program they could, and then God would decide the winner. Well, they both got right down to business, and wrote lines and lines and lines of code. But just before the four hours were up there was a flash of lightning and a tremendous clap of thunder. The lights flickered, the power faltered, and both computer screens went dead. When power was restored, God declared that time was up and asked to see the results of their work. Jesus flipped on his computer and displayed the most elegant program you could imagine, with beautiful architecture and wonderful syllogisms, triumphs of multimedia sound and pictures – all kinds of bells and whistles. God asked Satan what he had created, but Satan said, "I've got nothing, absolutely nothing. My program was twice as good as that, but I lost it all when the power went out. Jesus must have cheated. How could he still have such a great program?" God replied, "Everybody knows – Jesus Saves."

=====

A young brunette goes into the doctor's office and tells him that her body hurts wherever she touches it. "Impossible," says the doctor. "Show me." She takes her finger and pushes on her elbow and screams in agony. She pushes on her knee and screams, pushes on her ankle and screams...and so it goes. No matter where she touches her agony is apparent. The doctor says, "You're really a blonde aren't you." She sheepishly admits that indeed she is a blonde. "I thought so," he says. "Your finger is broken."

If you must choose between two evils, pick the one you've never tried before.

Every Sunday, a little old lady placed \$1,000 in the collection plate. This went on for weeks until the preacher, overcome by curiosity, approached her. "Sister, I couldn't help but notice that you put \$1,000 a week in the collection plate," he stated. "Why yes," she replied, "every week my son sends me money, and what I don't need I give to the church." "That's wonderful, how much does he send you?" "Oh, around \$3,000 a week." "Your son is very successful, what does he do for a living?" "He is a veterinarian," she answered. "That is a very honorable profession. Where does he practice?" "Well, he has one cat house in Las Vegas and another in Reno."
